

“ Without donations from companies like Skillsoft, the Creating IT Futures Foundation would not have been able to serve so many or attain the success rate that it has. ”

Amy Spear, Program Manager, The Foundation

BUSINESS CHALLENGE

CompTIA, the Computing Technology Industry Association, is a non-profit IT trade association that provides IT education and certification, advocacy on behalf of the IT industry, and philanthropic resources supporting employment in IT for people in need.

The organization needs donated training materials to help fund the Online Training Program because without donations from companies like Skillsoft, the Creating IT Futures Foundation would not be able to provide this valuable service to those who need it most.

HOW SKILLSOFT® HELPED

Skillsoft donated its IT Skills Courseware™ collection, delivered through Skillport®, Skillsoft's LMS. The IT Skills Courseware includes engaging and interactive instruction for hundreds of IT certifications. To practice the skills presented in the courses, students used IT certification manuals which offer information on emerging certifications and technologies, as well as practice certifications exams in order to test their knowledge in a test simulated environment

KEY METRICS

90% Over 90% of the individuals who were given access to Skillsoft IT Skills CompTIA opted to use their training

50% Over 50% of the participants who completed the Skillsoft training passed their IT certification exams.

30% 30% of the participants who completed the Skillsoft training found employment in IT

ABOUT COMPTIA

With more than 2,000 members, 3,000 academic and training partners and tens of thousands of registered users spanning the entire information communications and technology (ICT) industry, CompTIA has become a leading voice for the technology ecosystem. They focus their initiatives on supporting the success of businesses across the full IT channel, from the largest vendors on one end to smaller businesses providing IT hardware, software and services on the other, as well as the ICT professionals that make the industry run. Simply stated, the industry's innovation and growth depends on all its users.
