

American Council on Education (ACE)

The American Council on Education, the major coordinating body for all the nation's higher education institutions, seeks to provide leadership and a unifying voice on key higher education issues and to influence public policy through advocacy, research, and program initiatives. ACE's College Credit Recommendation Service (ACE CREDIT), connects workplace learning with colleges and universities by helping adults gain access to academic credit at colleges and universities for formal courses and examinations taken in the workplace or other settings outside traditional higher education.

ACE CREDIT has evaluated and recommended college credit for hundreds of Skillssoft courses.

Educational institutions throughout the world recognize ACE credit recommendations and would consider accepting ACE transcripts for transfer credit for students who are participating in degree programs at those institutions. The in-taking institution will determine how best to apply the recommended credits based upon their own degree programs and the relevance of the completed learning programs to the institutions own course offerings.

ACE CREDIT TRANSCRIPTS

Provided that the student satisfactorily completes all of the learning modules associated with the ACE-approved course and also passes the associated examination(s), at either an ACE Authorized Instructional site or an ACE Authorized Testing Center, ACE will issue a credit recommendation transcript. There is a one-time registration fee of \$40 which also includes the first transcript. Subsequent transcripts are \$15 each.

As with any situation where a student transfers from one educational institution to another, the in-taking institution cannot guarantee the transfer of all credits previously earned. The credit transfer depends upon the individual learner's circumstances and the relevance of the ACE credits to the degree program of the institution into which the student is enrolling.

ACE AUTHORIZED TESTING CENTER

To ensure quality control of ACE credit recommendations and to maintain ACE CREDIT's high credibility with other colleges and universities throughout the world, ACE requires that all examinations be taken in a proctored environment by an organization that has demonstrated to ACE that it has the requisite procedures and controls to validate the identity of the student and the accuracy of the examination score and related documentation. There is a formal ACE review process and related fees associated with establishing an organization as ACE authorized for instruction and/or testing.
