

Project Management Institute (PMI®)

PMI is the leading global association for the project management profession. Since its founding in 1969, PMI has been at the forefront of working with business to create project management standards and techniques that work.

SKILLSOFT'S AFFILIATION WITH PMI

Skillssoft is a PMI® Charter-Global Registered Education Provider (R.E.P.), Provider #1008. Through this appointment, Skillssoft has been recognized as a provider of project management training courseware that can assist PMI members and other project management stakeholders in their ongoing professional development.

With this designation, Skillssoft is approved by PMI to offer Professional Development Unit (PDU) credits for its courses that are related to project and/or program management. In addition, Skillssoft courses that are aligned with PMI's Project Management Book of Knowledge (PMBOK® Guide), are pre-approved for Contact Hour credits for individuals who are preparing to apply for one of PMI's certification exams.

SKILLSOFT COURSEWARE THAT ALIGNS TO PMI CERTIFICATION

The Project Management Body of Knowledge (PMBOK® Guide) is PMI's standard document that includes generally accepted knowledge and practices of project management. It is approved as an American National Standard (ANS) by the American National Standards Institute (ANSI) as a project management standard. PMI bases its Project Management Professional (PMP)® and Certified Associate Project Manager (CAPM)® certification exams on the various process groups defined in the PMBOK® Guide, and Skillssoft offers a fully-aligned curriculum that can help prepare learners for the PMP® and CAPM® exams.

PMI's Agile Certified Practitioner (PMI-ACP)SM recognizes knowledge of agile principles, practices and tools and techniques across agile methodologies. The PMI-ACP is not limited to project managers or Project Management Professional (PMP)® credential holders; individuals with experience working on agile project teams can apply. Skillssoft's Agile Practitioner courseware series is aligned with the PMI-ACP exam objectives and will help prepare learners for that certification exam.
