

Skillsoft® Books EngineeringPro™

Multidisciplinary reference for science and engineering

Skillsoft Books EngineeringPro™ provides on-demand access to the unabridged contents of thousands of in-depth books, references, monographs, handbooks and textbooks covering a range of science, engineering and technology topics.

Organizations are placing greater demands on workers than ever before. Science and technology professionals are expected to deliver products on time and on budget, as well as remain technically current, innovate and solve problems. In the face of increasing technological complexity, finding a solution that can support all these needs is critical. EngineeringPro from Skillsoft Books helps make that happen.

EngineeringPro offers thousands of high value, fully-searchable titles online. This continuously growing collection provides information and answers that improve the productivity, upskilling and career development of scientists and engineers. Users can apply, browse and search every page of every book for trusted data, properties, technologies, best practices and more. Titles are available 24x7 from any web-enabled device, so professionals can access information when they most need it.

“ My colleagues and I are finding the Skillsoft Books library a very useful resource indeed. It gives us access to vital snippets of information and useful data we would not otherwise have. Our overall impression so far is: A First-Class research tool and resource. ”

Senior R&M Engineer at a major aerospace/defense manufacturer

A vital solution providing instant answers

LIVETABLES™, A UNIQUE PRODUCTIVITY FEATURE FOR TABLES

LiveTables is a productivity feature embedded into most EngineeringPro titles. Since many texts are packed with rich, useful tables, LiveTables enables professionals to save and download any table for personal manipulation and use. LiveTables is compatible with the most common spreadsheet applications used today.

Table 3.4: Summary operating parameters normalized to initial performances
→ Open table as spreadsheet

Normalized value	Initial values	Current values	Difference, %
Specific flux, l/m ² -hr-bar (gfd/psi)	4.31 (0.172)	3.39 (0.136)	-21
Salt passage, %	0.74	0.97	+31
Pressure drop, bar (psi)	3.5 (51)	5.29 (77)	+51

Desalination: Water from Water
By Jane Kucera (ed), Copyright Scrivener Publishing LLC©2014, Publisher John Wiley & Sons (US)

Table 3.4: Summary operating parameters normalized to initial performances

Normalized value	Initial values	Current values	Difference, %
Specific flux, l/m ² -hr-bar (gfd/psi)	4.31 (0.172)	3.39 (0.136)	-21
Salt passage, %	0.74	0.97	31
Pressure drop, bar (psi)	3.5 (51)	5.29 (77)	51

Provided for the personal use of Akara, Akara@skillssoft.com, Skillssoft Corporate, as a subscription benefit of Skillssoft Books24x7, <http://www.books24x7.com/>, and is governed by the terms of the Membership Agreement,

Disciplines covered in the EngineeringPro™ collection include:

- Aerospace
- Automotive
- Chemical
- Civil
- Computational Analysis Tools and Mathematics
- Electrical and Electronics
- Engineering Soft Skills
- Environmental
- Industrial, Manufacturing and Operations
- Marine
- Materials
- Mechanical
- Nanotechnology
- Mechanical
- Nuclear
- Optical
- Petroleum, Oil and Gas
- Sustainability
- Systems
- Telecommunications
- And more

FEATURES

Download tables for personal data manipulation

New and current titles added regularly from well-respected publishers

Authoritative resources spanning the spectrum of science and engineering topics

BENEFITS

Search for answers and solve problems effectively

Upskill by studying new knowledge and staying current

Raise productivity and time savings through better access to resources

Perform research and innovate
