

Skillsoft® Women in Action™

High-impact continuous learning for women leaders at all levels

The Women in Action Leadership Program provides women leaders with quick, convenient access to learning content that promotes the development of leadership skills and addresses the unique challenges faced by women in business.

A STRUCTURED PROCESS GUIDES LEARNING

The Women in Action Leadership Program from Skillsoft is a collection of high-impact training resources that are designed for women leaders and aspiring women leaders. These learning tools were formulated to address the needs of three distinct women leader populations:

- Senior leaders
- Mid-level leaders
- Emerging leaders

Using unique learning templates prepared by Skillsoft's subject matter experts, Women in Action learners are prompted to invest just one hour each month in their own development. A series of short videos, book summaries, activities and reflective thinking exercises provide focused learning in specific competency areas.

Learning resources are delivered on a template that can be distributed via email or calendar invite, or hosted on a server for access by busy leaders.

Videos, book summaries and learning activities are delivered monthly via learning templates
