American Council on Education

The American Council on Education, seeks to provide leadership and a unifying voice on key higher education issues and to influence public policy through advocacy, research, and program initiatives. ACE's College Credit Recommendation Service (ACE CREDIT), connects workplace learning with colleges and universities by helping adults gain access to academic credit at colleges and universities for formal courses and examinations taken in the workplace or other settings outside traditional higher education.

ACE CREDIT has evaluated and recommended college credit for hundreds of Skillsoft courses.

Educational institutions throughout the world recognize ACE credit recommendations and would consider accepting ACE transcripts for transfer credit for students who are participating in degree programs at those institutions. The in taking institution will determine how best to apply the recommended credits based upon their own degree programs and the relevance of the completed learning programs to the institutions own course offerings.

ACE CREDIT TRANSCRIPTS

Provided that the student satisfactorily completes all of the learning modules associated with the ACE-approved course and also passes the associated examination(s), at an ACE Authorized Testing Center, ACE will issue a credit recommendation transcript. There is a one-time registration fee of $40 which also includes the first transcript. Subsequent transcripts are $15 each.

TESTING LIMITS

Learners will have up to three attempts to pass the examination at the testing center. If the learner is not successful after three attempts, they will not be able to earn an ACE CREDIT transcript for that ACE-approved course.

ACE AUTHORIZED TESTING CENTER

To ensure quality control of ACE credit recommendations and to maintain ACE CREDIT's high credibility with other colleges and universities throughout the world, ACE requires that all examinations be taken in a proctored environment by an organization that has demonstrated to ACE that it has the requisite procedures and controls to validate the identity of the student and the accuracy of the examination score and related documentation. There is a formal ACE review process and related fees associated with establishing an organization as ACE authorized for testing.
